## Modular Sign Systems

Elegant  
Durable  
Modular

**ExPOGO!**  
Presentation Products

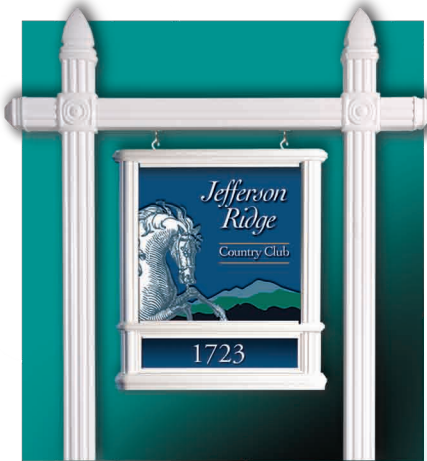

Add the classic styling of this durable modular sign system to your business, and see a real difference in the image that you project to the public. ArchiForm Signs are designed with incredible detail and architectural flair that will really make your location stand out from the crowd. Typical ArchiForm applications include: real estate developments, retail stores, professional offices, restaurants, bed and breakfast homes, historical sites and more!

### ArchiForm Modular Systems

Use our extruded PVC sign builder system to create a variety of sign configurations and sizes. Our "fluted column" style posts are both elegant and durable.

(1) 4" Pressure Treated 2" x 6" Plank,  
Plank Not Included.

## Classic Looks, Built To Last.

Beauty should be more than skin deep! Our signs look fantastic and are built to stay that way year after year. The ArchiForm<sup>™</sup> Sign System is designed with sophisticated computer-aided engineering software to insure precision fit and finish. The tough injection-molded outer shell is made even more resilient by our custom

blended WeatherForm<sup>™</sup> polymer, especially formulated to protect ArchiForm<sup>™</sup> from harmful UV rays and excessive dust accumulation. A solid molded urethane core adds super strength and durability. With ArchiForm<sup>™</sup>, changing sign boards is a snap, because the decorative top section is removable! Also, our modular design lets you add multiple strip signs to our hanging version. We have the sign you need to best suit your space and size requirements. For complete specifications and configuration possibilities, contact your authorized ArchiForm dealer today.

Step Stake Base For Temporary Installations.

Heavy Duty Ground Stake For More Permanent Installations.
