

Pactiva®

TABLETOP DISPLAY

Set Up

- 1 Open Pactiva case and unpack header bars, fabric panels and light bar.
- 2 Unfold fabric panel sections and prepare to stack the 2 sections.
- 3 Stack panels using stacking guides at the top of lower section. Spread out panels on tabletop.
- 4 Form header frame using white bars with snap clips (insert). Apply bars to header graphic on magnet side.
- 5 Angle center panel back and outside panels forward to support display. Attach light bar (insert). Hang header from top using hooks on support bar.
- 6 Display is set up and ready for graphics.
