

# EXPOGO 6' Tabletop Pop-Up

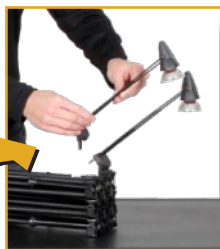

# Set Up

*The lights fit into the plastic adapters that are attached to the top of the unit.*

# 1

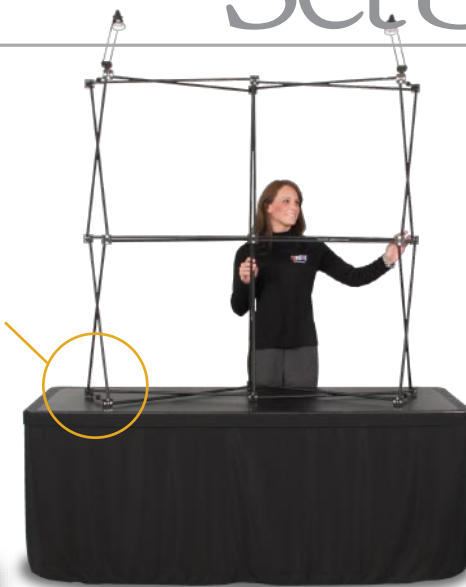

Remove frame from case and attach the two halogen lights before expanding the frame.

# 2

Expand the frame outward. When frame is fully extended, magnetic joiners will snap together.

*Magnetic Joiners will snap together as unit is expanded.*

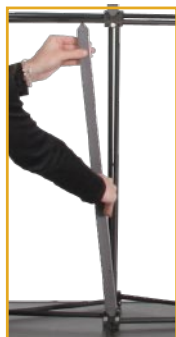

# 3

Once the frame is fully extended you are ready to add the 10 magnetic bars that secure the graphics.

# 4

Mag bars snap into place magnetically. Six bars are placed in front and four in back on the outer corners.

# 5

Graphic panels are hung on the mag bars, starting with the end caps. Panels share mag bars.

# 6

**Set-Up is complete.**
